QUESTIONS	OPTIONS EACH	LEVELS

Score: 0 / 15

0 of 15 answered

1 James ke agent ki kya main limitation thi jab student ne lesson progress check karne ko kaha? Basic

A Agent ke paas internet access nahi tha

B Agent training data se jaanta tha, magar live systems se interact nahi kar sakta tha

C Agent bahut slow tha aur timeout ho jaata tha

D Agent sirf English mein kaam karta tha

2 Emma ke mutabiq "Training data" aur "Tool" mein kya fundamental farq hai? Basic

A Training data free hai, tools paid hote hain

B Training data theoretical knowledge deta hai, tool actual live system pe kaam karne ki ability deta hai

C Training data zyada accurate hoti hai tools se

D Tools sirf Python mein kaam karte hain

3 MCP mein "Consumer" aur "Producer" ka kya farq hai? Basic

A Consumer code likhta hai, Producer sirf configure karta hai

B Consumer existing MCP server use karta hai, Producer apna naya MCP server design aur banata hai

C Consumer free hota hai, Producer paid hota hai

D Consumer Python use karta hai, Producer TypeScript

4 mcp-builder skill install karne ka sahi command kaunsa hai? Basic

- **A** npm install mcp-builder
- **B** pip install mcp-builder
- **C** npx skills add https://github.com/anthropics/skills --skill mcp-builder
- **D** openclaw skill add mcp-builder

5 CLAUDE.md mein "spec-first development" rule kyun add kiya gaya? Intermediate

- **A** Code faster likhne ke liye
- **B** Python aur uv use karne ke liye
- **C** Pehle requirements agree karne ke liye — taake code likhne se pehle sab clear ho aur rework na ho
- **D** Server automatically restart karne ke liye

6 Teen MCP transport options mein se sirf local-only (same machine) operation ke liye kaunsa best hai? Intermediate

A Streamable HTTP

B SSE (Server-Sent Events)

C stdio

D WebSocket

7 James ne apne TutorClaw MCP server ke liye kaunsa transport aur port choose kiya? Intermediate

A stdio on port 3000

B SSE stateful on port 5000

C Streamable HTTP stateless on port 8000

D Stateful HTTP on port 8080

8 Stateful transport ka kya nuksaan hai jo Emma ne apni real story mein bataya? Intermediate

A Bahut expensive cloud costs aate hain

B Sirf Python mein kaam karta hai, TypeScript mein nahi

C Session cleanup, timezone-related memory leaks aur mid-request expirations — raat 2 baje debugging karni padi

D WhatsApp se connect nahi hota properly

9 Tool specification mein sabse zaroori element kaunsa hai aur uski kya wajah hai? Intermediate

A Tool ka naam — kyunke lowercase hona zaroori hai

B Tool ki description — agent isi se decide karta hai ke kab yeh tool call karna hai, multiple tools mein se

C Output format — kyunke client ko pata ho ke kya milega

D Input parameters ki total quantity

10 Describe-Steer-Verify cycle mein "Steer" karne ka kya matlab hai? Intermediate

- **A** Server ko restart karna jab error aaye
- **B** Claude Code session band karke naya shuru karna
- **C** Spec propose hone ke baad usse modify karna — description sharpen karna, optional parameters add karna, output adjust karna
- **D** Manually test cases likhna code ke liye

11 TutorClaw server start karne ke baad OpenClaw mein register karne ka sahi command kaunsa hai? Intermediate

- **A** openclaw mcp connect tutorclaw http://localhost:8000
- **B** openclaw mcp set tutorclaw '{"url":"http://localhost:8000/mcp","transport":"streamable-http"}'
- **C** openclaw server start tutorclaw --port 8000
- **D** uv run python server.py --openclaw-connect

12 WhatsApp par tool execution verify karne ke liye sirf text response kaafi kyun nahi hai? Advanced

- **A** Text responses WhatsApp par properly display nahi hote
- **B** Agent plausible-sounding answer generate kar sakta hai bina actual tool call kiye — sirf tool badge proof hai
- **C** Text responses hamesha wrong hote hain MCP servers ke saath
- **D** Dashboard mein text responses visible nahi hote

13 openclaw mcp list ke baad tutorclaw nahi dikhta — sabse likely reason kya hai? Advanced

- **A** Server bahut fast chal raha hai aur list update nahi hui
- **B** URL mein single character error — jaise /mcp missing ya wrong port — jo silent failure deta hai bina kisi error message ke
- **C** Python version galat installed hai
- **D** Gateway properly installed nahi tha pehle se

14 mcp-builder SKILL.md file mein kya content hota hai? Advanced

- **A** Sirf project ka naam aur description
- **B** User ki profile aur preferences
- **C** MCP protocol knowledge, SDK patterns, best practices, aur testing approaches — jo Claude Code ko domain expert banata hai
- **D** Database connection strings aur environment variables

15 MCP server build karte waqt "You own the requirements. The agent owns the code." — is quote ka kya matlab hai? Advanced

- **A** Developer ko code likhna hai, agent sirf review karta hai
- **B** Developer domain requirements define karta hai (kya chahiye), Claude Code implementation likhta hai (kaise banao) — dono ki alag zimmedari hai
- **C** Agent code ka owner hai isliye usse delete nahi kar sakte
- **D** Requirements document agent ke paas store hoti hain, developer ke paas nahi
